How to create and strengthen collaboration between schools and businesses?

How can founders help to promote teaching MST at schools?

Afternoon panel A offers directors and leading teachers possibility to meet business representatives from companies which have an intention to collaborate with schools in process of introduction innovative features into education. There will also be a contribution from school founders whose support is essential for cooperation between schools and business.

Monika Ladmanová, IBM CR, CR

Business representative, Meopta Přerov, CR (tbc)

School Director, CR

Štěpán Harašta, Director of School department in Olomouc Region, CR

Jonathan Smith, Marks & Spencer, Manager for Czech Republic, Slovenia, Lithuania, Latvia and Poland (tbc)

16.00 – 16.15 Coffee break

16.15 – 17.30 Afternoon panel B

How to increase an attractiveness of MST learning?

Education of science and engineering fields is often very theoretical and boring in many elementary and secondary schools in the Czech Republic. It is also one of the main reasons why young people don’t choose their career in these fields. This is not just about careers in science and research institutions. Low interest in mathematics, physics or chemistry is causing problems for companies that need qualified experts in these fields in their processes. While, in fact, these companies create perspective job offers and have an important impact on economic growth in Europe and the Czech Republic.

Moderator:

Daniela Červenclová, Bayer

School Director, CR
